

## Microcredit for Mothers

### Project team

Astrid-Irene van Etten and Putiarsa Wibowo.

### Project goal

To support women and their families in Vietnam and Indonesia with their own businesses.

### Program

Vopak provides NGO Microcredit for Mothers with funds to provide small loans to 400 women in Vietnam and Indonesia, in order for them to start their own business, with cascading benefits for their children, families and communities.

## Indonesia & Vietnam

## Microcredit for Mothers

### What has been realized so far

The project has provided financial means to the Dutch partner organization Microcredit for Mothers to provide 400 women with microcredit. Vopak colleagues visited some of the women in Bogor, Indonesia and saw how small loans benefit the women and, indirectly, their spouses and children. For example, a loan of €80.- enabled one of the participants in Indonesia, Titin, to start selling gasoline for motorbikes and earn €40.- on a monthly basis. She plans to expand her small company with the savings that she is able to make.

### Calendar

Activities have started in August 2016.
